

MAYOR LOSES IN INGLEWOOD

Hugh B. Lawrence Wins in City Election

Receives 1445 Votes Out of 3412 Total

Five Officials Re-elected in Glendale

INGLEWOOD, April 12. (Exclusive) Hugh B. Lawrence, local member of the city council, was elected Mayor of Inglewood today by a majority of nearly two votes over Charles M. Miller, who had been the first election of officers under the new treasurers' charter which adopted at a special election last year, was re-elected to the city council.

Otto H. Duekne, City Clerk, was elected by a large majority out of a total of six contestants.

Hugh B. Lawrence, City Treasurer, was re-elected to the city council by a large majority out of a total of six contestants.

The four councilmen authorized to act in his absence were elected as Ward 1, Raymond V. Dwyer; Ward 2, Jack Chonister; Ward 3, John J. Stoops; and Ward 4, Robert Hansen.

A wide councilmanic field was

Major-elect Lawrence, who

voted, was easily defeated by Charles M. Miller with 1,276 ballots, while Clerk-elect Duekne received 2,032 votes against Record's 1,133.

Spaulding was elected Treasurer with a vote higher than his competitor, John J. Stoops, who had 1,900 votes.

Frank M. Friend, former City Treasurer, declined to enter the race as he had 3412 votes cast in the last election.

FIVE OFFICIALS OF GLENDALE RE-ELECTED

GLENDALE, April 12. (Exclusive) Clarence E. Kimlin, King of Glendale, was re-elected today, leading a field of five candidates. Lawrence K. O'Connor, William H. Hunter were re-elected to the Board of Education.

SPRAIC JURY LOCKED UP OVER NIGHT

Seven-Hour Deliberation Fails to Bring Verdict in Double-Killing Case

At the end of seven hours of deliberation, the jury in the case of John Spraic, charged with the double murder of H. E. Rane and his wife, was unable to reach a verdict. The jury was locked up for the night by Judge Edmunds of the Superior Court late last night.

The case went to the jury 12 hours after closing arguments were made by Dist. Atty. Frank J. Spiegel, and the defense attorney, Mr. George L. Wilcox.

The list of identified dead bodies have not been identified.

LIST OF DEAD

Following is a revised accounting of the dead, according to cross-checked figures, tonight:

Spraic, charged with the double killing, was found to be the son of a man who was shot and killed in a quarrel between the two men.

The case went to the jury 12 hours after closing arguments were made by Dist. Atty. Frank J. Spiegel, and the defense attorney, Mr. George L. Wilcox.

The list of identified dead bodies have not been identified.

BLAST OUT GRAVES

Dynamite was used this afternoon to blast out graves in the little cemetery. Some caskets were brought

DYNAMITE BLASTS GRAVES FOR TEXAS STORM DEAD

Thirty Tornado Victims Buried; Other Twisters in Four States With Huge Property Loss

(Continued from First Page)

from Kerrville, San Antonio and Kerrville citizens organized relief parties upon receipt of news of the disaster and started out almost immediately under most unfavorable weather conditions, to reach the stricken village. It was necessary to cross and recross the Nueces River and wade its way through mountains, and the absence of bridges on the rocky, mountainous road made fording the stream extremely hazardous.

Uvalde, Del Rio, San Antonio and Kerrville citizens organized relief parties upon receipt of news of the disaster and started out almost immediately under most unfavorable weather conditions, to reach the stricken village. It was necessary to cross and recross the Nueces River and wade its way through mountains, and the absence of bridges on the rocky, mountainous road made fording the stream extremely hazardous.

REG FOR DOCTORS

They met stricken men and women driving automobiles coming to those bringing succor. They would stop every Rock Springs building to inquire for help. They were haggard, starry-eyed and all but delirious with fatigue and despair.

On arrival of troops from Fort Clark under command of Maj. K. S. Clark, who had been placed in military rule. Only doctors and nurses were permitted to enter. Guards were posted over the remaining merchandise stocks. Gen. Clark sent a black and tenter hook to the homes. There isn't a family that has a roof over its head tonight.

Rescue work was seriously impeded by the mud and debris left by the tornados, way over the mountains and by the fact that Rock Springs has neither railroad nor telegraph lines. Frank W. Whorlow, San Antonio, who was to the destruction areas of the tornado, reached Camp Wood today with a vivid account of the disaster.

"I was driving to Rock Springs from Junction," he said. "Miles before I reached Rock Springs I saw the sinister funnel-shaped cloud racing ahead of me. There was a great rolling thunder in the main cloud, set in a background of ink-blackness. I feared trouble."

SWISH AND ROAR

"When I go into Rock Springs the clouds was hanging just above the city, not a breath of air stirring. At

ANGELENOS FEAR FOR KIN

Stricken Town Former Home of Persons Living Here, Early Incidents Related

A number of persons now living in Los Angeles once were residents of Rock Springs, where the storm worked such havoc. Among them are Mr. and Mrs. J. R. Sweeten, 1405 Constantine avenue; Jack D. Sweeten, 708½ Bonnie Beach Place; N. B. Gorman, 1708 South Bonnie Brae, who was principal of the high school there in 1925; E. J. Vineyard, 7355 Sloan street, Palms; Mrs. John Henry and daughter of Long Beach, and others.

The Sweetens' parents and other relatives live in the stricken town and they were trying frantically yesterday to learn the fate of their relatives.

"As it approached the mountain near McCurtain, it apparently gained momentum, hit the mountain side, fell back and struck again," he said. "Another assault, then a third, before it reached the crest. As it struck, trees and houses shot into the air. The mountain seemed to alter the tornado's course, so it passed a short distance from McCurtain.

"The first house hit by the twister was that of John Ross, two and one-half miles from McCurtain. Mrs. Ross ran to the house carrying a baby. She was hit in the face by a plank and died within a short time. The baby was severely injured. Mrs. Lucy Elliot, mother of Mrs.

The town was founded in the late eighties. Col. Bob Sweeten on a trip about 20 years ago, while in the surrounding country, J. R. Sweeten said, and is thirty-one miles from the end of the Southern Pacific spur line. Camp Wood, six and eight or more miles from the main line. Major Sweeten came from there less than two years ago.

Just twenty years ago a storm did a lot of damage to the place, Sweeten said.

BUILDINGS IN ROCK SPRINGS STORM PATH

Above is shown the Rock Springs High School which was partly wrecked by Tuesday night's tornado. Below, the principal garage in the town, and a dwelling-house. Dispatches indicate numerous such structures were leveled. The boy in the picture Hurshel Foley, is a brother of Mrs. J. R. Sweeten of Los Angeles, while the garage was operated by Mr. Sweeten's stepfather.

WOMEN SHOT IN CHINA RIOT

(Continued from First Page) ever, that they may not return to-morrow.

While these infernal factional disorders only a few weeks ago in full retreat before the victorious Cantonese, today further drove their lines southward, consolidating their positions all along the north bank of the Yangtze River. In fact, they had taken Hsiaochou, near Kiangting, crossing the river. Kiangting is half way between Nanking and Shanghai.

The feeling was general in Shanghai that the Chinese were being concentrated on the mainland to avoid the meeting summoned for tomorrow at Nanking in the hope of splitting up the Cantonese geographically as well as politically.

The measure would declare the owners adjacent to streams

State and adjacent only to the water from which they can put to beneficial use in that area.

In that case a new State will be necessary to cover the northern part of the Yangtze River.

Chiang has been quoted as saying that his forces will move toward elimination of any foreign interests from China, insisting that China's own resources must be done away with.

TENESSE AT CANTON

Consulting the location of the assembly reported to have been held in the meeting summoned on the eve of the meeting, the Chinese were to meet at the meeting summoned for tomorrow at Nanking in the hope of splitting up the Cantonese geographically as well as politically.

All Roads Lead to Whittier

the State Highway — all routes from the north, the main route from the south

— all main boulevards from Santa Monica Bay, coming east through Los Angeles, are headed for Whittier — Washington, Pico, Wilshire and Beverly Boulevards.

— and all central arteries from the metropolis — Ninth Street, Seventh Street, Fourth Street, etc.

This means that if you buy a QUALITY BUILT home in Whittier now, at present prices, you will have a salable property with steadily increasing value.

Griffin Pedigreed Houses are built to stand.

They are convenient, comfortable and attractive.

They are 100% modern to the minute.

They won't leak — roofs, walls, basement, windows, doors, or anywhere else.

A certificate executed by the California Retail Lumber Dealers' Association goes with each house, showing the dimensions, quality and grade of every piece of wood in the house.

You will be just 30 minutes from Broadway, on good elevation, amidst orange blossoms, in a very modern little city, with 34 miles of concrete streets, its own college, etc.

A Griffin Pedigreed House in Whittier is better than gold. Every year it will be worth more money.

And every day it is productive of pleasure and satisfaction.

Five and six-room houses \$7000 to \$9000.

Come and see me.

Pure Yeast turned into a Delicious Food

On your own table, you can now have more tasty foods, vitalized by a wholesome, delightful yeast values. Yeast makes common meals become more interesting.

Just add a bit of VEGEX to pasta, soups, casseroles, vegetable stews, gravies or sandwiches. The improvement in taste is astonishing.

Vitamin B is added — i. e., 1/2 teaspoonful of the yeast with the cell walls removed. It has no yeast-like flavor.

Millions of people who are not ill will have much more vigor, more vitamins, more health, more vitamins they require. VEGEX supplies the heat, energy, laxative and life-giving Vitamin B values of yeast in delicious foods.

Special 15c Introductory Offer

We introduce the great health values of VEGEX. We offer you a special offer — make this special offer — a jar of VEGEX and the book, "Food and Life," for 15c. This is a special offer — greater or draggliest. Money back if not more than satisfied.

The VEGEX book contains discoveries on foods and 168 recipes for appetizing dishes (1) to build strength and endurance; (2) to combat fatigue and to promote child growth; (3) to prevent goitre due to iodine deficiency; (4) to combat scurvy; (5) to avoid constipation and certain skin diseases; (6) to combat rheumatism; (7) to combat heart trouble; (8) to combat neuritis; (9) to combat neurasthenia; (10) to combat neuritis; LOSES, 4-3
TO ARIZONAErrors Cost Oxy Team Tilt
When Argue Slips; Tolson
Hurls Good Ball

Arizona's crack baseball nine came back strong yesterday afternoon in the second and final game against the Occidental College squad to try to win the title. The Tigers in a closely contested 4-to-3 ball game, Ben Tolson, the Wildcat sensation, squared himself after being knocked out of the box Tuesday, and allowed the Tigers five scattered hits. Bill Argue pitched a two-hitter, but the Tigers outscored him by two runs. Tolson has the same reputation in the big league.

Even the members of the Maroons predict that Capt. Andrew Newell and his players will top the Chicagoans on their pedestal. Jimmy McLaughlin, captain of the Maroons, who has had the game Monday been prolonged an additional two minutes his puck shooters would have scored another point over the major league team.

The Richfields, tonight, will have the benefit of the playing of "Bullet" Couper, intrepid French-Canadian player, who has been playing predominantly with the Globes. Lou Boehler experts predict that Couper will prove the sensation of the night's play.

Opposite Couper will be Mickey Dye, Blackhawk star off-the-player.

The battle between these men will be of skill, wits and daring. Couper is a chance-taker, while most figures except that he hit shot. Noway has the same reputation in the big league.

The outstanding features of tonight's scheduled game seem to be the ambushing of Roosevelt chest stars, and the determination of the

Cards Wind Up Dual Meet Season With Bears in Three Sports

RECORDS TO GO IN TRACK MEET

Spencer and King Approach World Marks

California May Give Rivals Torrid Battle

Christie's Outfit Capable of Eight Firsts

BY WILL FREDERICKS
STANFORD UNIVERSITY, April 13.—Stanford and California athletes will wind up their dual competitive season Saturday with competition in three major sports, track, baseball, and tennis.

As far as championship honors are concerned, fans will watch Stanford chiefly for the marks the stars make in competition.

In spite of the apparent one-sidedness of the encounter track and field fans expect one of the best competitions in history, not only because of the high standard point, but from the viewpoint of quality of performances.

And in spite of their lack of balance and strength, the Bears stand in reasonable position to win eight of the fifteen first places.

First, as to records:

Spencer and Christie made over hurdlers now burning up the quarter-mile track, is a "cinch" to break the Card-Bear 440-yard record of 48.9-10s.

Wright, over 100 yards, will easily break the 440 record three times in as many meets, and was regarded as likely to hold the final mark attained for some years.

Now comes the question, will he cut a full second off Miller's mark if he wishes. Spencer, incident-

BRUIN GOLFERS TO MEET REDLANDS PLAYERS TODAY

Starting on the last half of their conference competition, the Bruin golf team is scheduled to meet the strong Redlands outfit at Los Serranos Country Club this afternoon. Dope at hand points to another victory for U.C.L.A.

and tennis. The Cards are favored to win all three.

Coach Robert Lyman Templeton's under path and field conditions are considered as superior to the Bears that interest in the "big meet" centers chiefly about the many California-Stanford records which are likely to be broken, also the many marks which Emerson Spencer or Bob King may approach, and about the new events in which competition between the two teams will be close and worth while.

The high jump record, standing at 5 ft. 4-3-in. Templeton lets him "out."

King, however, has been known to stretch himself once every two weeks

He has already gone 5 ft. 4-1-in., and can do better.

Nichols and West of Stanford, Nichols and West of California are capable of beating Leistner's 9-10s, in the high hurdles.

Hoffman of Stanford and Gerhard of California are capable of beating Hartmann's 49ft. 81/2-in. in the shot, and his 146ft. 9in. in the discus.

Hartmann and Edmunds of Stanford are capable of breaking the pole vault mark which stands 12ft. 11 3/4-in.

Schultz of California, in his present shape, would beat the mile mark of 4:29 1-3s. His teammate, Stevens, could bust his own two-mile record at 5m. 43 1-10s.

Whether of the record has been at his best this season.

Joaquin of Stanford is capable of beating the javelin mark held by Sorrenti, at 198ft. 5in.

Wright, all told, is an array of possible records breakers never equaled in any big meet of the past.

In tennis, with young Cranston Hoffman as the leader, the Cards are strongly favored to win the Bears. The third game of the baseball series may not be played Saturday. But in case the third game is necessary, Wright is likely to be favored to win it, as they looked stronger in all preliminary games.

Wright and Singleton in League Lead

Wayne Wright, Los Angeles, and John Singleton, Sacramento, have been credited with three victories and charged with no defeats to lead the Coast League hurlers after two weeks' play in the 1927 season.

Four other pitchers have records of two wins and no losses. Following are the records of pitchers credited with a victory or charged with a defeat.

JONES WINNER IN MAT BOUT

(Continued from First Page)

Kepken, the silver-voiced announcer, gas-planned to term a "reverse grasshopper" hold.

In the championship struggle, the battle was somewhat more even and Matuda had a tough time until the bout was over. He put Vargo down with a reverse hold, and sors and headlock in 54m. 15s. the first time and dropped the Chicagoan with a toe-hold in 15m. 15s. for the victory.

Orman Shoemaker won over Martin Zivovich in 7m. 27s. in the first preliminary. He used three headlocks to put down Zivovich.

LASALLE WINS OVER INKSTER AT BEACH

Bobby LaSalle, local featherweight, scored a convincing eight-round decision over Scotty Inkster in the main event of the Ocean Park Fun Palace fight last night. LaSalle had all the better of the going. In the semi-wind-up, Bobby Bridges outpointed Tom Moore over six rounds. Goddie Head knocked out Mike Marullo in three rounds of the special. Phil Blood stopped Eddie Feeler in three and Frank Abendano fought a draw with Grover Toombs in the curtain-raiser.

FALCONS WIN OVER RANGER HOCKEYITES

The Falcons upset the dope out at the Palais De Glace ice rink last night by defeating the Rangers, 3 to 1. The Falcons had a good game for the winners and Quinn accounted for the other. Chappell put the only score for the Rangers.

YOUNG CORBETT WINS ON FOUL OVER WILLS

OAKLAND, April 13. (AP)—Young Corbett of Fresno won on a foul over Young Harry Wills, negro weight-weight of San Diego. In the last round of their scheduled ten-round bout here tonight,

FESS WON'T GO ON COMMITTEE

Ohioan Refuses to Join Fund Investigating Body

Senator Not in Accord With Majority Members

Believes No Authority Exists for Quiz Group

WASHINGTON, April 13. (AP)—Senator Fess, Republican, Ohio, today declined to accept appointment as a member of the Reed campaign funds investigating committee to succeed Senator Goff, Republican, West Virginia, who resigned.

In declining, Senator Fess said he believed that investigations of elections should be conducted by the regularly-constituted standing committee of the Senate and that he was not in accord with views of a majority of the special committee.

Vice-President Dawes, who made the appointment, of his refusal to serve and that he took this action against the service of Senator Goff, the Republican leader. The Vice-President has held the committee was functioning legally, despite failure of the Senate to adopt a resolution specifically authorizing it to sit during the recess of Congress.

"My inclination from the first has been to decline the appointment, but being willing to do my duty, I desire if public service could be required, I have considered it from the point of view of the Ohio Senator," said Fess.

"My very strong case for the resolution creating this select committee, for the reason that all necessary investigations should be made by the standing committee created for the purpose, but after the committee was established and had started its investigations in the Pennsylvania legislature, I stated, I stated in the Senate the evening before adjournment that I would vote for the resolution continuing the session, excepting that I wanted to complete the work already begun, but that I did not like to have a committee remain at the beck and call of someone who might wish to lay a charge, whether it be a responsible or irresponsible charge, set up as if it were a grand jury, and make public information that every Tom, Dick and Harry may come in and state his charge."

"As a member of the Committee on Appropriations, I have no authority to say there is no authority for that committee to approve expenditures of the special investigation fund," said Fess.

Whether the committee now exists is a matter of difference of opinion to be settled finally by the Supreme Court. It would be inconsistent for the committee to accept advice given to it by the Supreme Court.

It is virtually certain there will be no fighting in the warfare between the Liberal and Conservative factions Monday and Friday as customs prohibits the removal of steaming even a cartwheel turning the latter party of Holy Week.

Managua and other places were receiving the annual arrival today after the torrential rains which broke the five month's dry season.

Equipment for farm, orange grove, poultry or stock ranch is made known through FARM and ORCHARD MAGAZINE of the Sunday Times.

GUN SUPPLY OF LIBERALS TAKEN

Entire Stock of Munitions Captured by Diaz Men

Nicaraguan Rebel Leader Flees Over Mountains

Sacasa's Army Also Reported to Have Disbanded

WASHINGTON, April 13. (AP)—The entire munitions supply of the Sacasa Liberal army has been captured by the forces of President Diaz, the Nicaraguan Legion here declared it had been informed in cable advices.

Gen. Moncada, Liberal military commander, had escaped over the mountains to Rio Negro on the Atlantic coast, the report said, being accompanied by only eight of his followers.

The Legion's statement also said that Sacasa's army had disbanded and its general headquarters at Managua had been captured.

Motives which led to Legion's statement said were taken included 80,000 rounds of ammunition, sixteen machine guns, two cannon, 130 shells as well as a quantity of telephone and telegraph instruments.

LUMBER COMPANIES SAFE

Foreign lumber companies in Nicaragua are to continue business there without molestation either Conservative or Liberal authorities, Admiral Latimer advised the department.

He said that Conservative and Liberal representatives had signed an agreement, witnessed by Commander S. M. Labounty of the Navy, which committed as a guarantee to the lumber industry in Nicaragua. It stipulates that none of the lumber plants, including important mahogany mills, is to be molested or either confiscated or nationalized, that employees are not to be molested and that timber possessions are not to be commandeered.

Commander Labounty is in charge of the naval detachment at Rama, where the agreement was signed. Any dispute under it will be decided by him and his decisions will be accepted as final.

FIGHTING WILL BE HALTED UNTIL EASTER

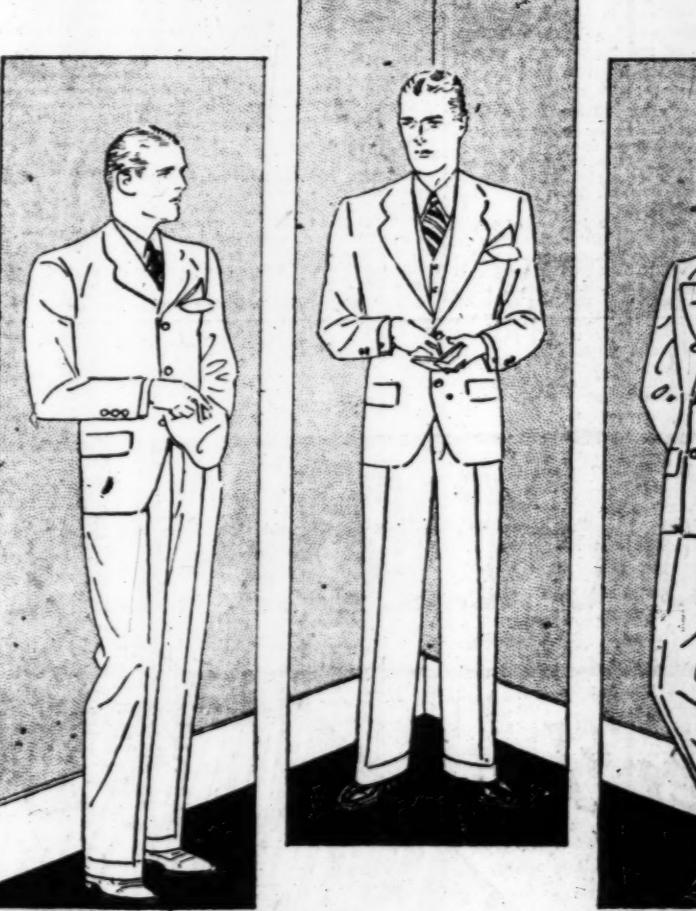

MANAGUA (Nicaragua) April 13. (AP)—Gen. Viguier, of the Conservative Army, continues to report captures of ammunition and prisoners from the Liberals and the Conservatives are celebrating his success. In the belief that the battle of the Liberal capital had been won.

It is virtually certain there will be no fighting in the warfare between the Liberal and Conservative factions Monday and Friday as customs prohibits the removal of steaming even a cartwheel turning the latter party of Holy Week.

Managua and other places were receiving the annual arrival today after the torrential rains which broke the five month's dry season.

Equipment for farm, orange grove, poultry or stock ranch is made known through FARM and ORCHARD MAGAZINE of the Sunday Times.

EAPOT LEASE CASE APPEALED

Supreme Court Will Rule on Sinclair Transaction

Result of Several Years of Litigation

Government to Ask Delay in Criminal Charges

WASHINGTON, April 13. (AP)—The Teapot Dome lease, made to Harry F. Sinclair, wealthy oil operator and woman, which precipitated the oil reserves in Wyoming and Montana while Albert B. Fall was secretary of the Interior, was condemned today to the United States Supreme Court after several years of litigation following the Senate investigation.

More convincing final argument in the last of the old oil suits, the government counsel argued that they would move now in the District of Columbia Circuit Court for a postponement until fall of the criminal trial of Sinclair and Fall.

The case had been set for trial on this inst. Although no reason was given, the delay was assigned, government counsel are known to have obtained the testimony of Owen F. Blackmer, former president of the Standard Oil and Gas Company, Harry F. Blackmer, at one time chairman of the board of the Standard Oil Company of Indiana, and Edward G. Blackmer, who have been in Europe for several months.

Arguments for Sinclair and Fall are to oppose the motion and to ask for a speedy trial. Sinclair is also under conviction for contempt of the Senate by refusing to answer his questions in the investigation in the oil case, and his sentence was postponed last Monday for thirty days by the Supreme Court.

While the District Court granted the motion for a delay in the criminal trial, decision of the Supreme Court in the suit might be handed down in the meantime.

Changes in the two cases are similar, revolving around an alleged amount of \$250,000 in Liberty bonds paid by Sinclair a little earlier than the time he was exonerated in 1922, and it is in this connection that the testimony of Blackmer and others sought. Government counsel told the Supreme Court that the Liberty bonds which Fall had been obtained by him from the Continental Trading Company were used in the purchase and sale of that company in the United States.

Lawyers in arguing the case in the Supreme Court followed their briefs closely. Those representing Sinclair argued that there was not sufficient evidence to sustain the charge of fraud and corruption which had been made against him for canceling the lease and that he was innocent.

HAIL OF FRAUD CHARGED

Both government counsel contend there was a trail of deceit and favoritism throughout the transaction.

According to an inquiry by Justice McReynolds, former Senate president of Ohio, of government counsel that the government contend that Sinclair had obtained the Liberty bonds from the Continental Trading Company and had turned them over to Fall. Owen J. Roberts, government counsel, declared in answer to Sinclair had given \$10,000 in Liberty bonds to the Interior Department and had that transaction but had not received any compensation.

John Martin W. Littleton was chosen as counsel for Sinclair.

He was closely questioned by the Supreme Court. They took from a technical expert of the Bureau of Inquiry into the alleged danger of the naval oil reserves.

TEAR GAS ROUTS BANDITS

Chicago Gang, Led by Girl, Besieged and Taken by Police in Spectacular Battle

CHICAGO, April 13. (Excluive)—Battling with tear-gas bombs, which they hurled under a revolver fire from the inside into a house at 2532 North Sacramento Boulevard, fifty policemen tonight after a tense siege captured a slender, hard-boiled gun-girl and three men whom she had an hour earlier led in the robbery of Joseph Robinson's jewelry store, where \$7000 worth of plunder was taken. The robbery—committed boldly at dusk when throngs were passing the jeweler's shop—was spectacular enough. Its dramatic sequel was even more so.

Coming as it did during the homecoming week of the workers, the siege of the police attracted several thousand spectators who watched tensely as the bandits darted about amid the cracking of revolvers from the inside of the house, breaking windows and doors, and after bombs of tear gas into the place.

When at last the shooting from inside the house ceased, when the place was sealed with the heavy door and the bandits had fled, all others staggered out of the place, the hard-boiled young woman still remained. Police found that she had wedged herself into a hole in the floor. New York Exchange ticket agent, she could get some air and summoned a Fire Department squad to don gas masks and get her out.

GAS DOES ITS WORK

When the firemen finally got her, she was so far overcome by the fumes that they had to stretch her out on a stretcher and rush her to the Bridewell Hospital in order to revive her.

The girl at first told a pitiful story of a struggle to stave off death by making artificial flowers. But the police learned she was none other than Helen Conklin, alias Helen Buch, alias Helen Buchen. They discovered also she had been arrested before for being "dumb."

The three men, while they gave the girl credit to be a light o' love of them, got full credit for an iron nerve and a most bold leadership; were also inclined to curse her for being "dumb."

FATAL OVERSIGHT
For this girl who could hold a wicked and impudent smile so nervously, had brought about the sequel to the robbery, the siege, and the capture all because, in leaving the store, her gun pointed at the door, and in the course of the action, she had carelessly left lying on the counter her hand bag in which was the telephone number of the house where she lived. The telephone was located and surrounded it.

The girl herself opened the door and saw the police. She pulled a pistol which leaped out at their throats. As the dog leaped, Lieut. John L. Sullivan shot it dead. Then the door slammed and as the detective quickly dashed away from it three shots were fired from the inside through it.

The detectives believe the girl must have been shot from the automatic she had used in the hold-up.

CORDON DRAWN

As Sullivan and his men retired other shots were fired at them from the inside of the house and then, determined to get the bandits, a dozen men sent for reinforcements. About forty-five policemen quickly responded and a solid circle of police was at a safe distance around the house.

Sullivan and his men now worked their way one after the other toward the house and buried rocks near the windows to break them and after the rocks went the tear bombs.

It was after an hour of such maneuvering with the cracking of revolvers and the increasing roar and less frequent, that the besieged finally gave up and started to staggering out of the house.

MESSINGER SHOT BY PAY-ROLL ROBBERS

CHICAGO, April 13. (Excluive)—Five robbers shot and seriously wounded a bank messenger today and escaped with the pay roll of the Armour Glue Works. The messenger, Frank Novak, employed by the Central Manufacturing District, was carrying the pay roll in a bag when encountered by the quintet armed with revolvers.

**Santa Monica**
Southern California's
home city of Culture,
Sport and Recreation

SANTA MONICA is famous
for its hospitality. There are
few strangers here. Because of
its many social and recreational ac-
tivities the newcomer finds count-
less opportunities to make a host of
friends.

In Santa Monica you can enjoy the
lively diversions of the seaside and
at the same time have all the con-
veniences customary in a metropoli-
tan suburb. You can live in an
atmosphere of romance and color
far removed from the riot of teeming
crowds and the roar of city traffic.
Yours can be the peace and content-
ment of ocean, mountain and shady
park—yet you are less than an hour's
call from the greatest metropolis on
the Pacific.

Your Santa Monica summer will be
cool and comfortable; your winters
mild, yet very invigorating—your
flower garden, a year-round delight
—your golf sticks and bathing suit,
daily institutions—your yacht, your
horse, your automobile, uninterrupted
pastimes. Santa Monica cordially
invites all ages, all creeds and all in-
terests to this garden frontier of the
most spectacular city in the world.

In addition to every known summer
sport, Santa Monica has much that
appeals to the discriminating new-
comer; the new State University and
the Occidental College, in the vicinity
of Santa Monica, will furnish the
finest mental and physical equipment
available. The Los Angeles Botanical
Gardens Project, a non-profit under-
taking, endowed by private enter-

prise to further national horticultural
research, will transform Mandeville
Canyon into an arboretum of tropi-
cal verdure, expected to rank as the
world's finest exhibit. The Chautauqua
in the Pacific Palisades—a fine
residential district just across the
canyon—attracts huge audiences
every summer.

A new project—the Santa Monica
Tennis Club will be located in Santa
Monica Canyon at Seventh Street.
Plans call for "en tout cas" courts,
landscaping and an artistic country
club building for social activities.

Public and private schools, academies
and educational institutions, are of
the best—shopping facilities, unex-
celled—clubs and leagues for the
study of the arts and sciences abound.

International fame has come to Santa
Monica in aeronautics, in field and
water sports, in scenery and in climate
—its outdoor life on beaches and
mountains is a byword among world-
travelers.

Investment and business opportuni-
ties are numerous and are the natural
outcome of sustained growth over a
period of years. Santa Monica is
unique because it offers everything
that you expected to find when you
came to California.

Strongest of all the attractions Santa
Monica has for you are the oppor-
tunities for social fellowship and
healthy outdoor recreation—and of
such things is the true joy of living.
Come, then, to Santa Monica where
so much awaits you.

"SANTA MONICA - Where the Mountains meet the Sea."

BY HOWARD C. KEGLEY

The Petroleum Securities Company yesterday placed on production its fourth well in the Alamitos Heights district in the northwest extension of the Seal Beach field. Total initial output of about 2500 barrels a day, and running its total production to about 9500 barrels a day. Production of the part of the field is now about 14,000 barrels a day from five wells, J. Paul Getty being the only other producer besides the Doheny interests, his Cleaves No. 1 well holding up at about 4500 barrels.

Collins No. 4, the well completed by the Petroleum Securities yesterday, was completed at 4720 feet. In addition to the 2500 barrels daily from this well Petroleum Securities is getting about 2300 barrels from Collins No. 1, 2700 barrels from No. 2 and 2000 barrels from No. 3, which were brought in last Saturday. All these wells are making 27 day gravity oil.

Increase Bibby Output

The Marland Oil Company, discoverers of the Seal Beach field, yesterday recompleted its Bibby No. 10 well, increasing its production that it obtained when it came in, according to field reports. The Bibby No. 10 offsets the Associated Company's Bryant lease, and is near the end of its life. Originally it was completed at about 4500 barrels for an output of about 1000 barrels a day. It was then killed to keep down the amount of gas pressure on several occasions.

The Marland Oil Company and the Associated Oil Company are the only ones left in the field to really prolific production from the Bibby zone. The Standard Oil Company has two or three wells on the Elkhorn field in the Bibby zone, but they are not big producers, and in the town lot district in the northwestern end of the field the Bibby zone, apparently is missing, although the lower section is being the only sand yet over none being the only sand yet found.

Who Owns the Oil

According to the terms of the recent Federal court decision the Doheny interests will relinquish their production on the naval reserve in the Dominguez field to the Department tomorrow, the 15th inst. Just how much production is involved is not definitely known, but it is estimated to be somewhere around 8000 barrels a day. The Navy has called for bids for the operation of the wells, and several companies have entered bids promising among them the Standard Oil Company, the Union Oil Company, the General Petroleum Corporation.

The Doheny interests still retain some oil production in the Elk Hills on leases not included in the naval reserves.

Gets Good Well

The Crudeil Company, operating in the town lot field in the west end of the city of Huntington Beach yesterday brought in its No. 2 well with an initial output between 1200 and 1500 barrels a day, according to reports. The well is down 4300 feet, and is one of the best producers.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs—one or twice a week for several weeks—and see how Nature rewards you.

Calotabs are the greatest of all system purifiers. Get a family package with full directions. Only 35 cents at drugstores. [Advertisement]

BURNS and SCALDS

Stop the throbbing and smarting at once with a soothing touch of Resinol

brought in at Huntington Beach in recent months. It is located on Ocean avenue near Sixteenth street, adjoining the Barry Oil Association's property.

Near Completion

The Miley Oil Company's two wells in the northwest extension of the northwest end of the Seal Beach field should be setting casing in his No. 2 well, according to field reports. Both wells are drilling ahead and should pick up the Silver zone today or tomorrow.

Getty No. 3 Cements

J. Paul Getty, who is still getting nearly 4500 barrels a day from his Cleaves No. 1 in the Alamitos Heights district, yesterday set casing in his No. 2 well, according to field reports. The well is about 1000 feet distant from the adjoining Doheny well, which is only about 2000 feet apart.

Johnson Suspends Well

George W. Johnson has suspended operations on his wildcat well on the west end of the Seal Beach field, according to field reports. The well was drilled to about 2840 feet, and recently conducted tests of some showing a flow rate just above that point, but it is understood that the flow is not promise much in the way of production. Johnson had practically the same experience in this well that the one he had in the Weller field, which was located only about 300 feet distant. Marland went on down to about 4000 feet before stopping, but Johnson is not expected to follow suit on his well.

Fing True Well

The Union Oil Company is preparing to plug back its well a short distance from the northeast corner of the central part of the Rosedale field, according to drillers. Bottom of the well is at 8500 feet, and it is understood that the overlying sand and gravel sand was penetrated in the well, but cores from the bottom of the hole indicated the possibility of a well being present. The cause was set and a plug placed in the bottom of the hole. Prospects for a producing well are said to be brighter than at any time in the past year, and the gas pressure is high enough to produce barrels daily. The Nordanger said Capt. Lie, averages 20.5 miles per hour.

The big motorship, which was built at Antrim in 1925 for Westphal, Larsen & Co., and has since been under charter to the General Petroleum Corporation, is powered with Diesel engines. She has covered 125,000 miles since commissioning without a single machinery casualty. The Nordanger likes to run her engines at 1000 revolutions a minute, which is about 1500 to 2000 feet a day. It was then killed to keep down the amount of gas pressure on several occasions.

Part 5000 Feet

The Standard Oil Company's deep test well in the Monte Vista district in Ventura county is more than 8000 feet deep without a single important showing to date, according to officials. While the Doheny field is not supplied by the Standard a few months ago after one of the most thorough preliminary prospecting campaigns in California history, the Marland doesn't think wells of from 1500 to 2000 feet were drilled to determine the structural characteristics of the district before the real test was started.

SWAB Reyes Well

The Shell company should add another well to its list of producers in the Elkhorn field in the Bibby zone, but they are not big producers, and in the town lot district in the northwestern end of the field the Bibby zone, apparently is missing, although the lower section is being the only sand yet found.

WAY PAVED FOR NEW BRANCH CITY HALL

The last major step to realization of a new branch city hall at San Pedro was brushed away yesterday when Harbor Commissioners voted to participate in the construction of the building, which is to be settled between the different municipal agencies participating.

The structure will rise on the site of the old branch, a heritage of San Pedro, built in 1890 by the city of Los Angeles. The new building will contain seven stories and cost approximately \$100,000.

The house broken off practically every city department and bureau except that of power and light, which has its own three-story, two block west on Seaside street.

Gods Shallow Zone

The Miley Oil Company has set casting in its Miley No. 6 at about 3000 feet on top of the shallow zone in the Signal Hill field, according to field reports. Core just below the cementing point indicate the presence of a body of rich oil sand.

SANTA FE NET IN YEAR GAINS

Corporate Income Reported at \$60,631,494 in 1926

Equals \$23.42 on Common, as Against \$17.19 in 1925

Freight Revenue 12 Per Cent Up; Passenger Fares Off

Net corporate income of the Atchison, Topeka and Santa Fe Railway Company for the year ended December 31, 1926, amounted to \$60,631,494.88, equal after preferred dividends to \$23.42 a share on the 2,600,098 shares of outstanding common stock, according to the company's annual report released yesterday by W. B. Stover, president.

This compares with net profits of \$44,712,112 for the preceding year, equal to \$17.19 a share on the same amount of common stock, an increase of \$14,473,560.86, or more than 31 per cent. Total assets at December 31, 1926 amounted to \$269,040,515.80, as against \$238,942,528.78 in the preceding year.

Net operating income totaled \$60,631,494.88 in 1926 and \$55,686,194 in 1925.

FREIGHT INCOME UP

The freight revenue of the Santa Fe system in 1926 increased substantially over 1925, while revenue from passengers carried showed a slight decline. Freight revenue totaled \$17,115,100, as against \$17,076,850, or \$65,230.78 in 1925—an increase of \$21,459,384.88, or more than 12 per cent.

Passenger revenue aggregated \$44,694,000, as against \$49,742,942 from the total of \$44,116,181.88 in the preceding year.

The average tons of freight per car carried increased from 29.58 to 29.80, 8.80 per cent. The average tons of freight carried per freight train mile increased 5.88 per cent from 670.07 to 705.70. The average passenger train mile increased from 87.57 to 97.74, or 2.18 per cent. The average passenger revenue per passenger-train mile was \$1.50.

Neither the Santa Fe nor any of its auxiliaries has any notes or bills outstanding, the report states. The company held in its treasury and deposit accounts \$1,100,104.84 in cash, and \$25,358,500 in United States government securities, which are carried at cost of \$25,757,205.96 in the general balance sheet.

"While there was a satisfactory

SALE OF MEALS PROFITABLE

Childs Restaurant Chain Serves More Than 1,000,000 People Weekly; Cafeterias Owned Here

BY EARL E. CROWE

To the impressive list of chain-store securities with which Pacific Coast traders are rapidly becoming familiar is now added the Childs Company, operating the largest string of restaurants in the country. The Childs Company recently broadened its activities in Los Angeles by the purchase of Boos Brothers Cafeteria Company, which adds about 290,000 meals weekly to the number the Childs system serves from coast to coast.

The interest on the Pacific Coast in the shares of the chain companies has substantially increased in recent years as the direct result of the invasion of this field by companies of this type. Frequent business contact with nationally known companies selling shoes, dry goods, groceries, automotive supplies, house hold goods, drugs and other articles naturally excites an interest in the profits of these companies and the possibilities in sharing in them through the ownership of stock. Most of the chain-store concerns are anxious on their part to convert their customers into partners.

HUMBLE BEGINNINGS

Like nearly every other chain enterprise, the success of the Childs Company revolves around one man who grew out of a small business.

William Childs, president of the Childs Company, who visited Los Angeles prior to the Boos Brothers purchase, ran a small restaurant in New York City more than forty years ago. After branching out with a few more locations he incorporated his operations into the first New York chain.

Other ficitons scheduled for today include the California system, which includes 110 restaurants and cafeterias, the last six having been acquired in the Boos Brothers transaction.

Before the Boos cafeterias were added, the Childs restaurants served 1,000,000 meals a week, or nearly 15,000 daily. The Los Angeles cafeterias, the first to open in the West Coast under the supervision of the New York chain, are run by Ben Bryan, senior member of Logan & Bryan, one of the oldest of the New York stock of chain-store operators. Bryan is president of the chain of Trade houses.

Starting with one overland duplex wire from Chicago, Logan & Bryan now have five wires from which three of which are duplexes.

The Logan & Bryan system covers the entire country between the Atlantic and Pacific and extends up to and throughout Canada.

OIL SHARES WEAKEN ON LOCAL MART

Union, Union Associates and Richfield Lead Drop; Bancitols Gains

Oil shares turned weak again on the Los Angeles Stock Exchange yesterday, the general decline being led by Richfield, Union Oil of California and Union Oil Associates. Richfield and Union had a point loss, while Union and Associates lost 8-1/2 and 1-1/2 points, respectively.

Julian Petroleum preferred sold off 2-1/2 cents in the morning to 7-1/2 and rallied in the afternoon to a firm close at 7-3/8. The common held at 1-1/2. Standard Oil of California closed 4-1/2 points lower at 21-1/2 and California Petroleum lost 8-1/2 and 1-1/2 points, respectively.

Julian Petroleum preferred sold off 2-1/2 cents in the morning to 7-1/2 and rallied in the afternoon to a firm close at 7-3/8. The common held at 1-1/2. Standard Oil of California closed 4-1/2 points lower at 21-1/2 and California Petroleum lost 8-1/2 and 1-1/2 points, respectively.

It is evident from the fact that French money is being lent here until the 22nd of this month that no payment is being effected at the end of next week. The ultimate effect must necessarily be to increase the bank control of the market by the Bank of France's debt to the Bank of England.

Tyrol Hydro-Electric Power Company "TIWAG"

7% Guaranteed Secured Mortgage 25-Year Sinking Fund Gold Bonds
UNCONDITIONAL GUARANTEE
as to principal, interest and sinking fund by endorsement on each bond by the STATE OF TYROL and the CITY OF INNSBRUCK

Dated: February 1, 1927 Denominations, \$1,000, \$500 Due: February 1, 1952

Paying interest semi-annually, without deduction for future taxes of the Republic of Austria. The State of Tyrol, or any other taxing authority in Austria, in U. S. Gold Dollars of the present standard of weight and fineness in New York at the office of The New York Trust Company, or to F. J. Lisman & Co., Fiscal Agent, as well as in Vienna.

The following information has been summarized for us by Dr. Anton Eder, President of the Tyrol Hydro-Electric Power Co., from his letter to us dated February 1, 1927.

The Bavarian A. G., largest distributor of electric power in Southern Germany, owned by the Bavarian Government, has contracted to purchase electric power from the TIWAG for 25 years. These Bonds, in addition to being secured by mortgage and guaranteed, will be specially secured by a first lien on the proceeds from all the sales under this contract.

"TIWAG"

The first installation of the TIWAG with a capacity of 14,700 H. P. is now over 80% completed and is expected to commence operation on September 1, 1927. The American Appraisal Company reports that after final completion, the TIWAG plant will have an installed capacity of over 120,000 H. P. and an estimated annual output of 155,000,000 KWH, representing the largest hydro-electric installation in Austria, and one of the largest in Central Europe. The State of Tyrol and the City of Innsbruck, guarantee the bonds, which are perfectly safe, for 25 years, amounting to \$3,790,000 against an expenditure of \$2,770,000. The State of Tyrol has practically no outstanding debt, while the funded debt of the City of Innsbruck amounts to \$415,000 only, against City-owned property of over \$9,400,000.

In addition to the guarantees and first lien described above, these Bonds, in the opinion of counsel, will be secured by a closed first mortgage on the main transformer station in Innsbruck and other property (part thereof) to be acquired and constructed with the proceeds of this loan), valued at \$2,045,000; and a second mortgage (subject to \$3,000,000 7½% Bonds now outstanding) on all other real property of the TIWAG, valued at \$7,420,000, both of these valuations as appraised by the American Appraisal Co.

Price 97½ and accrued interest, to yield over 7.20%

These Bonds are offered by us when, as and if issued and subject to the approval of counsel. Delivery will be made in the form of Interest Certificates or Temporary Bonds, to be exchanged against Definitive Bonds.

Circular containing additional information may be had upon application.

NEW YORK CURB STOCKS

NEW YORK, April 13. (P)—Spec-
tacular bullish demonstrations in a number of specialties in today's curb market brought sharp advances in price and more than a dozen new high records for the year or longer. Prices generally were irregular, and trading showed signs of broadening out.

Reports of increased earnings of Vitaphone and a retreat of the short interest brought a jump of nearly 5 points in Warner Brothers Pictures B. Estey-Walte, which sold down to a record of 6, this morning later rallied to 11. The market was led by Athorn Auto, Borden Corporation, A. Lackawanna Securities and Nelson Corporation. Food shares, however, were heavy. Borden Company sold down to 10, new minimum for the year.

Oil shares held up well in spite of a drop in Pennsylvania crude prices. In California, the oil market continued strong by advancing 3 points to a new 1927 maximum at 11½. Houston Gulf Gas also touched a high, while Caribbean Syndicate dropped fractionally to a new low.

Among public utility issues, new peaks were attained by American Telephone and Tel. & Tel. B. and C. respectively, and by Pen-Olio Edison common and preferred, which gained 2 and nearly 5 points.

LEADING RAILS LOSE GROUND

(Continued from 12th Page)

and Union Bag and Paper touched a new low at \$1 and then rallied to \$3 7-8. Electric Refrigeration made further recovery in reflection of the optimistic statement on business conditions by the president of the company. United States Steel common and General Motors made moderate gains. Oils turned heavy in the morning, but had a recovery by the time an early burst of buying in the coppers quickly put out. Vulcanizing issues were strong on early buying.

Speculative iron spots in the rail group at Atchison, Chesapeake and Ohio and Illinois Central lost a point or more.

Assumption issues were run at the expense of an overcrowded short interest. Warner Pictures advanced nearly 6 points and Fox Film 2 points, but Pathé and Famous Players failed to maintain their early gains.

Time money and commercial paper rates were unchanged.

Estimates of another new high for several years by Italian lire just under 5 cents featured the strong foreign exchange market. Demand was reported slightly higher around \$6.20. \$15-16, and the market had firm above \$2.01 while sharp advances again took place in Norwegian kroner and Spanish pesetas.

The foreign exchange markets moved within narrow and irregular limits. Wheat options declined a fraction of a cent bushel, cotton and sugar closed practically unchanged, and coffee futures receded 5 to 11 points.

SANTA FE NET IN YEAR GAINS

(Continued from 12th Page)

Movement of general commodities in 1926 "Mr. Storey said, "the outstanding features of this business were the large increase in the consumption of oil in the Texas Panhandle. Wheat and cotton made particularly heavy yields. The Santa Fe alone has handled over 12,000 carloads of wheat to Galveston since July 1, 1926, with 412 cars for the same period in the preceding year."

"Crop prospects for 1927 east of the Rockies are not as good as reported a year ago, and in California they are better, but it is hardly probable that such favorable conditions will be sustained through to the close of this season."

The company's program for capital expenditures in 1927 includes \$24,000,000 to finish up work authorized prior to January 1, 1926, \$1,000,000 for new equipment, and \$27,500,000 for new additions, betterments and improvements. The total is \$67,000,000, of which about \$40,000,000 will probably be spent during the current year. The new equipment consists of 3200 freight cars, fifty-eight passenger cars, six electric locomotives and three electric motor cars.

During 1926 the company paid out in pensions to its retired employees \$481,065.92, there being 1012 pensioners on the payroll. The average for the year compared with \$372,500.54 paid in 1925, and 854 pensioners December 31, 1925. Death benefits were paid in 341 cases, amounting to \$520,000.41, compared with \$429,985 paid in 1925 in 338 cases.

CATTLE—Imperial Valley trade with two-pronged early signs of cattle, probably all of yesterday's stock, did not arrive until late and with no demand, a slow market resulted, with no buyers. The market was at 75c per lb. holding steady with the trade falling to 70c on monthly 10415 tons of from Mexicali. The majority of the Imperial cattle were steer, also the early supply was made at about early price.

A load of common 800-pound steers sold for 75c, while a load of this 850-pound steers averaged over the 80c. No other cattle were offered, but a few small lots of 400-450 head and small lots from 8,000-10,000, including a short load of 900-pound California cattle, all odd head of common cattle sold down to 70c. The market was at 75c per lb. holding steady to 70c. Buells were active and made good pull selling from 8-20c/lb. with when killed down to 60c and common bulls down to 10c.

CALF—The small supply was down daily to generally 800-850 tons each day, with no load arrival until late and with no demand, a slow market resulted, with no buyers. The market was at 75c per lb. holding steady with the trade falling to 70c on monthly 10415 tons of from Mexicali. The majority of the Imperial cattle were steer, also the early supply was made at about early price.

A load of common 800-pound steers sold for 75c, while a load of this 850-pound steers averaged over the 80c. No other cattle were offered, but a few small lots of 400-450 head and small lots from 8,000-10,000, including a short load of 900-pound California cattle, all odd head of common cattle sold down to 70c. The market was at 75c per lb. holding steady to 70c. Buells were active and made good pull selling from 8-20c/lb. with when killed down to 60c and common bulls down to 10c.

CHICKEN—No fresh arrivals were on hand yesterday, but a few small lots were offered, and some made very little, mostly 25c per lb. The day's top was 15c/lb. paid for a load of 200-pound average. A load of 190-weight and weights and a small load of 180-weight resulted in a load of 180-head offered for 11.75c. A load of 210-head offered for 11.75c, with heavier averaging 16c. Loads of 180-head and 180-weight were offered for 11.75c, with a few very light birds at 9.00c. CHUBEE—No fresh arrivals were on hand yesterday, but a few small lots were offered, and some made very little, mostly 25c per lb. The day's top was 15c/lb. paid for a load of 200-pound average. A load of 190-weight and weights and a small load of 180-weight resulted in a load of 180-head offered for 11.75c. A load of 210-head offered for 11.75c, with heavier averaging 16c. Loads of 180-head and 180-weight were offered for 11.75c, with a few very light birds at 9.00c.

CHINESE—No fresh arrivals were on hand yesterday, but a few small lots were offered, and some made very little, mostly 25c per lb. The day's top was 15c/lb. paid for a load of 200-pound average. Henry Ford Called Artist

Newark, N. J., April 13. (P.T.)—Henry Ford, artist, has so drawn himself in a pamphlet by John Cotton Dana, director of the Newark Museum. Referring to Ford and others the pamphlet says that often the constructions are not based more on imagination than in later years in a deep and full appreciation of the arts as conventionally defined.

Bandits Leisurely Rob Cash Boxes of Wilshire District Branch Bank

COUPLE ESCAPE IN WAITING CAR

Employees Locked in Room During Plundering

Pair Appear to be Tutor and His Young Pupil

Customer Throws Ring Away as Guns Appear

Two bandits, apparently tutor and pupil in the fine art of making money at the point of the gun, brought the total of bank robberies within the last thirty days to ten yesterday afternoon.

They strolled into Seaboard National Bank agency at 2115 Wilshire Boulevard a few minutes before the doors were to be closed for the day, forced the four people in the place to a semi-reclining position on the floor and went out with a considerable sum of cash.

A third gunman, in reserve in a machine at the curb, drove them away just ahead of three cars full of drivers who had been dashed up in response to the alarm.

Just how much the bandits obtained has not been announced last night, but it is believed their plunder will run somewhere between \$2000 and \$3000. The loss is fully covered by insurance.

Both bandits were well-dressed and armed. One of them, youth of about 18 years of age, wearing horn-rimmed spectacles, appeared to be a novice in the bank-robbing business. The other, a man of middle age, gave the orders and supervised the job in a professional manner.

H. B. Kirkpatrick, assistant manager of the agency, was in his office at the time. He was not injured in the hold-up. Mrs. M. S. Atkinson was in front and Harry Johnson in his cage, also toward the rear. The bandits forced the two men to the room, locked the door, and went through the cash boxes at leisure. A customer was forced to join them. He took his diamond ring by throwing it back a couple of feet as the gunman wandered in.

MYSTERY IN CLOTHING OF BOYS ON PIER

Ocean Park Police Seek Two Lads and Fear Both May Have Been Drowned

Police and lifeguards at Venice, Ocean Park, Santa Monica and other bay cities are searching for two boys who left clothing on a long gang plank running beneath the Lick Pier in Venice.

The lad whose body has been drowned was believed possible, though another theory expressed is that they might be runaways who, becoming frightened, abandoned the pier and swam to Venice in their bathing suits.

Another possibility is that the boys have taken to a boat and are adrift.

Lieutenant Cronin of the Ocean Park plonge noted the clothing on the plank at 10 o'clock yesterday morning. He thought little of it, as he has seen many times the remains of clothing of commerce in other Southern California cities. The response to this campaign has been widespread and reports from participating communities indicate such a high percentage of mailing that the local air mail carrier is making provision to charter airplanes in addition to its regular equipment should the volume warrant.

REDLANDS SENDING OUT ADVERTISING POSTERS

REDLANDS, April 13.—Redlands boosters today called for red, white and blue air mail posters which will be sent this week to advertise this community and in observance of the first anniversary flight of the Western Air Express. Several thousand advertising posters will be printed by the Redlands Chamber of Commerce for free distribution and are available to all who call at news-paper offices or chamber headquarters.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.

—Abraham Lincoln

GOSSIPY MEN
Men are just as fond of gossip as women are. Only they're especially fond of gossiping about the fondness of women for gossip.LOOKS THAT WAY
A man testified in court that he knew a debtor would pay his bills because his wife had such lovely hats. That guy they might well call an optimist.EQUALLY MATCHED
Two brothers are the champion orators of Long Beach Polytechnic High School. How things must sizzle when they have a family argument in that household!A SK UNCLE SAM
Both the Republican and Democratic parties profess to be opposed to crime and yet the blamed thing hasn't been suppressed. Strange what a grip it has.SATURATION
Over in Detroit they think that the peak point in the motor industry is when there are three cars in each family. At that calculation there are still several miles to go.JUST AS GOOD
We can't all of us be the sort of geese that lay golden eggs, but most of us can lay enough eggs, on the installment plan, to suit the canny egg-gatherers just as well.PIPE DREAM
The Chinese are reported to be hitting the opium pipe more than at any other time in the last fifteen years. This may explain the conversion of so many of them to Buddhism.STRAIGHTENED CIRCUMSTANCES
George Ade once remarked that many people are good because it costs too much to be otherwise. Yes, the path of virtue which a good man of us tread might be called the straitened narrow way.ALWAYS ON TAP
We only need to cite the Weather Bureau to show what a wonderfully expansive and resourceful country we have. Everything imaginable is on draught—including the west wind. The Weather Bureau must look like the front of a soda fountain.SEGRAVE'S SENSATIONS
In describing his sensations while driving at the rate of 203 miles an hour on Daytona Beach, Maj. Segrave said he had all the feeling of flying. "My heart," he confessed, "was thumping terrifically as I finally stood on the sand once more." No doubt. But he never would have stood the grime if he hadn't had the sand.BAD SLIP
Florida's boosters are getting careless. They have let H. J. Upham of Panama City in that State publish a magazine article saying that lightning from a clear sky is not infrequent in that burg. The statement itself comes as hot from the blue. And somehow one would hate to be struck by lightning that played little parlor tricks like that.A RAT SCARE
With the women of Santa Rosa kindness to animals doesn't seem to include tolerance for rats. In a parade through the streets of that city in cel-eration of Kindness-to-Animals Week a thoughtful small boy carried in his pocket several white-spotted rodents, and when one of them leaped out and landed on the shoulder of a woman in the line she went into hysterics as did several other women. Rats should also learn kindness to humans.POLITICAL PERILS
In their consuming passion to garner all the tax-money that can possibly be squeezed from the people the California politicians are imperiling the value of the State as a place of residence. We invite men of means to come to California to make their home and then create a system of laws which threaten the use and control of their own property. The politicians are about the only stumbling blocks to real progress on the Coast.ONE MINUTE'S WAGE
A Philadelphia statistician has figured out that the average income of the American working person is 1½ cents a minute. It does this average person very little good to be told that Gloria Swanson receives 37.40 a minute and Douglas Fairbanks \$6.67 for laboring the same brief period. Many people would be quite content to work one minute a day if they could receive such a sixty-second wage as either Gloria's or Doug's. Sad, too, to reflect that the President of the United States gets but 50 cents a minute, or less than one-twelfth the average pay of these two film celebrities.SOUTHERN CALIFORNIA PAYS
The successful effort of Gov. Young—aided by northern interests and with the sympathetic support of Hearst's Los Angeles and San Francisco papers—to levy oppressive taxation upon a large part of the securities held by California residents is a direct blow at Southern California.

The act repealing the 7-per-cent assessment law on non-California stocks and bonds was jammed through over the most extensive and bitter protest ever made against any California tax measure, not excepting the King bill. In this protest The Times and Southern California generally took a leading part, for the reason that this part of the State stands chiefly to suffer as a result of the Governor's amateurish tax program, conceived as a means to defray the staggering costs of his administration for the next biennium as set forth in a budget which breaks all records for extravagance. However, as the Governor has shown before—notably in the highway fight—Southern California means but little to him. As long as it is Southern California that pays it is all right with Gov. Young. He is of the north and for the north.

Geographically, California is a unit with its north and south only roughly defined for differentiation of direction and climate. In their devotion to the Golden State most Californians know no north or south; in the social and business associations of the State there is no north or south, but politically there is a north that levies and a south that pays.

It is the growth of Southern California that has caused the State as a whole to astonish the country by its swift and splendid progress in the last decade. In Southern California are the thousands of new residents from the East who have brought with them millions of dollars' worth of non-Californian securities, and in the East the thousands of non-Californian security owners who to invade California have been looking eagerly to the day of their departure for the famed Southland of the West. Those already here face an increase in the tax rate on their invested non-California capital amounting to from \$50 to \$90 per cent. Tricked into coming and then fined for their choice, they will say. And word will go forth that California is driving away millions in new capital that was on the eve of joining the millions already here.

When California became a State in 1850, the total valuation of personal property, including money, was \$13,565,797. In 1914, this item had grown to \$542,599,922. Ten years later, in 1924, the personal property listed in Los Angeles county alone had leaped close to the 1914 total for the State with \$492,464,090 for Los Angeles county and \$1,049,925,540 for the fifty-eight counties of California. By the present date Los Angeles county and its neighboring Southland counties have gone far beyond the totals of 1924.

Over the half the total personal property valuation of 1924 was noted in eight southern counties—Los Angeles, \$494,464,990; San Diego, \$13,561,633; San Bernardino, \$7,576,440; Riverside, \$4,442,880; Imperial, \$7,252,798; Santa Barbara, \$12,145,705; Ventura, \$4,978,795; Orange, \$50,660,330. The total of these items was \$594,422,132, which exceeded the total personal property valuation of the fifty-eight counties by \$130,904,722.

The largest personal property valuation in any of the fifty other counties was \$121,405,422 in San Francisco county, and it is well known that the proportion of non-California corporation securities included in the San Francisco valuation is far below the percentage that obtains in Los Angeles and other southern counties where recent arrivals from the East are holders of millions in eastern securities. Outside of San Francisco, the other county valuations are inconsiderable when compared with the average of \$74,302,766 in the eight southern counties named as against, \$6,664,330 in the rest of the State comprising all the other fifty counties except San Francisco.

While unsuccessful in its main object of preventing the abrogation of California's promise of fair taxation to those it has induced to come here, the courageous fight of the Los Angeles legislative delegation, led by Senator Chamberlin, was far from fruitless. Several millions of dollars will be saved to investors through a series of amendments to the original Young bill. These amendments were forced through by the Los Angeles legislators and by indignant business interests and their acceptance by the administration was in itself a confession of their realization of their precarious position.

PEACE NEAR IN NICARAGUA
It comes as a relief to peace-loving Americans that the war in Nicaragua is drawing to a close. The part we played in quelling the fracas was not of our choosing, and our government will be glad when the time arrives for withdrawing our forces from the country. To police a foreign land is not a pleasant task. We have not had a tenth as much of this sort of thing as England has taken upon herself from time to time, and this fact should be a matter of satisfaction to the average American, though it gives no joy to the jingo.

Our position in Nicaragua has been a delicate one. We had not the slightest desire to interfere, and sincerely hoped that the Nicaraguan government might be able to settle affairs with the Liberals without our assistance. This hope, however, proved futile. On both sides the belligerents seemed to be anxious to gain favor with the United States. To conserve peace President Diaz offered to resign in favor of some one else if that seemed best to our government, and the rebel President Sacasa made the same offer. But for us to act upon these suggestions seemed to President Coolidge too much like meddling in the politics of another country, and he took no action upon either proposal.

All that we wanted so far as Nicaragua was concerned was the protection of the lives and property of our nationals and the assurance that they would not be molested as they had been from time to time by the Liberals. When this assurance could not be given then, and not until then, did we take steps toward intervention. This action was protested most vigorously by certain Congressmen, among them Senator Borah, but the President showed his indifference to this protest and hearkened to the voice of duty by sending the marines to Nicaragua despite the strange clamor raised against his doing so.

It is evident that the President felt that the objections of Borah and others in Congress represented a very small part of the sentiment of the country—that, while American lives and property were menaced in Nicaragua, there was but one thing to do and that was to use force in order to insure their protection.

Another factor in the situation, though it was one which Borah and his crew of ob-

LETTERS TO
The Times

Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not welcome.

An inferiority complex is a good point. It makes a letter better.

Too many references carry weight in one hand and a balance in the other.

Proper salutation with Federal taxes: "Ladies and gentlemen."

Questions are the most popular in the school oratorical contest.

With the added latitude given to the school pupils in the 1927 National Oratorical Contest on the Constitution, the schools are developing a new method for dealing with assessment districts as advocated by Mr. R. M. Angier in a recent address to the Westlake Hills Improvement Association.

"When you go to the store," said Mr. Angier, "you demand the price before you buy. Why not do the same with your improvements?" The State act provides for this, and we should fully utilize the provision.

"Instead of meaningless postcard notices, a cheap newspaper copy sent to each property owner could outline the assessment district and give the extent of the work and the amount to be paid by each owner or what funds were allocated to the job."

"This would expose any injustice, explain matters fully and give the property owner ample time to consider what he wished done before it would be too late, where at present it is rather a 'pig-in-a-poke' proposition."

R. J. S.

Sinclair Lewis Defended

LOS ANGELES, April 10.—[To the Editor of The Times:] You have permitted Mr. Charles Coke Woods to expand his views about Sinclair Lewis's "wild tongue" at great length; won't you, therefore, allow me just a few paragraphs in which to state a slightly different viewpoint?

I cherish my neutrality toward the church or church people, but toward the type of minister that Sinclair Lewis has so finely and artistically flayed in Elmer Gantry I experience a contempt that simply cannot be put into words. As a matter of fact, I am an ex-minister myself of the Protestant cloth.

Mr. Woods will refer to Lewis's book as a "satire" on the character of Frank Shallard a portion of a loveable, kindly, Christian son. Surely the man who could draw such a character is not unfair, not narrow and bigoted, but very tolerant and human, full of the milk of human understanding.

In the book this character, Shallard, has his eyes beaten out by an angry mob because he spoke in defense of the Chinese. The author is not to be faulted for this fetchetted? Less than a month ago Clarence Darrow was forced to leave Mobile under the protection of an armed force because he attempted to speak there again of the lynching of negroes! If anything, Mr. Lewis's tongue was not wild enough!

CABOT CASLEY.
Needless Cruelty

LOS ANGELES, April 9.—[To the Editor of The Times:] Your admirable paper has won our gratitude by the important part it has played in securing the observance of "kindness to animals" this past week. Notably great was the timely educational editorial of April 4 on "Needless Cruelty," calling attention to the brutality of cropping.

His philosophy of ancestral worship is partly the cause of the lack of the so-called progress of modern civilization. He lives in a world of "kindness to animals" this past week. Notably great was the timely educational editorial of April 4 on "Needless Cruelty," calling attention to the brutality of cropping.

That the widow of Dr. Sun is now being compelled to pay for what she did not do, and that she is to be fined \$100, is a very bad example of the kind of the people of this great land.

The face of the Chinaman is still beneath the placid exterior is the face of the Chinaman.

Curiosity, the dominating force in human nature, is stirred by the character of the people of this great land.

The dismantling part of the Chinaman's life and succeeded in ably what he will deserve to tell his masters with a fiery determination.

It is a dark horse in the competition for the title of the year's most popular. It is serving his purpose bringing him to the front in his present drawings in the book this character.

Minery loves company, but with his circle with the same of the same.

The dismantling part of the Chinaman's life and succeeded in ably what he will deserve to tell his masters with a fiery determination.

FOR a change try an open cheese and bacon sandwich

THIS is but one of the many delightful ways of serving Tillamook cheese, given by Miss Alice Bradley, culinary editor of the Woman's Home Companion, and famous chef of the Pacific Coast, in our 32-page recipe booklet. FREE! Write for it. Tillamook is full cream cheese, made in America's "little Holland," the Tillamook valley. It comes to you just as it leaves the shining cheese kitchens, unchanged in full flavor or richness. Look for the name on every slice and loaf. Tillamook County Creamery Association, Tillamook, Oregon. Twenty-three cheese kitchens owned and operated cooperatively by the dairymen of Tillamook County.

TILLAMOOK Full Cream CHEESE

Food value of 5 quarts of milk in every pound.

Ever Taste Anything Better Than These Deep Fried Tomatoes?

Besides being a treat that you and every member of the family will enjoy, these Fried Tomatoes will demonstrate to you what a remarkable fat Mazola is for deep frying.

Being a pure vegetable oil—pressed from the hearts of golden corn kernels—Mazola fries foods so that, when ready to serve, they are greaseless and easily digested. And after frying, merely strain the Mazola, using it over and over again—as it never carries odors or flavors from one food to another.

This recipe is from Ida Bailey Allen's New Book—see coupon below.

Fried Tomatoes

4 medium sized tomatoes 1 egg
Fine dry bread crumbs $\frac{1}{4}$ cup milk
Mazola

Wash and dry the tomatoes and slice crosswise to make three thick pieces. Dust with salt, pepper and a little sugar and roll in fine dry crumbs. Beat the egg, add the milk, dip the slices in this, dip again in crumbs and fry in deep Mazola, hot enough to brown a bit of bread in one minute, 350 degrees F. Drain the tomatoes on crumpled paper and serve plain, or on toast with white sauce.

	Send Only 10c with this coupon and you will receive a copy of Ida Bailey Allen's wonderful new Cook Book, beautifully bound, 112 pages of unusual recipes. Write Johnson, Carroll & Murray 247 South Central Avenue Los Angeles, Calif.

SOCIETY

Kathleen Campbell, daughter of Mr. and Mrs. Daniel Campbell of Glendale, finally has decided upon the date for her marriage to Donald Cameron. It is to be June 6, her grandfather's

birthday and her grandparents' wedding anniversary. Mr. and Mrs. Daniel McPeak.

Dr. Hugh K. Walker will tie the knot—the Campbells having been members of Emmanuel Presbyterian Church. The bride's parents were both here a bride twenty-six years ago. But he will be assisted by Rev. Walter Edmonds of the Glendale Presbyterian Church, where the wedding will take place.

The maid of honor will be Mrs.

John G. Huntley. Bridesmaids will be the Theta Phi Alpha—Virginia Judge, Elsie Parks, Dorothy Goodrich and Katherine Gude—and also Mildred Stanford and the groom's sister, Ruth Cameron.

The room will be supported by Maynard Toll, and the ushers will be Dr. Arthur Millford, Captain Mr. Daniel McPeak Campbell (brothers of the bride) Messrs. John Woods, Ross Maxwell, Sam Gates and Revel Edwards.

Kathleen Campbell is a senior at University of Southern California, Mrs. Daniel Campbell a graduate of University of Southern California and a Phi Kappa Tau. His parents are Mr. and Mrs. J. D. Campbell.

Many friends are entertaining for these young people, and during the past week congratulatory hosts have included Miss Ruthie Miller (bridge tea shower), Miss Ruthie Guide (luncheon and shower), Miss Mildred Stanford (bridge tea and shower), Miss Elizabeth Von Kleinechmid (reception and tea), Miss Eloise Park (bridges at Palos Verdes), and yesterday, Mrs. Virginia Jones (luncheon tea for the bride-elect at Altadena).

The calendar also is booked up ahead for this much-feted young lady. Mrs. C. T. Mainwaring has dinner with her at the University Club today, and Many Janet Culbertson will give her a bridge tea at the Flintridge Country Club on Saturday.

Mrs. Dorothy Risk of Beverly Hills has a luncheon party arranged for the 23rd inst., and Miss Dorothy Goodrich will be this bride-elect's hostess on the 30th inst.

The invitations still are arriving.

A Day in Hollywood

Mr. and Mrs. Paul Stone of New York, the Stone being the brother

of the famous Fred of that ilk) spent a full day in Hollywood on Tuesday.

Besides visiting Will Rogers and Douglas Fairbanks, they met

such celebrities as Mrs. John Moore

and the bride-elect's mother, Mrs. Dorothy Risk of Beverly Hills has a luncheon party arranged for the 23rd inst., and Miss Dorothy Goodrich will be this bride-elect's hostess on the 30th inst.

The invitations still are arriving.

For Lamberti Murphy

Mr. and Mrs. Fox Nicholson, the latter known in the musical world as Laurie Gregory Nicholson, will entertain with a dinner party on Saturday evening at their Harvard Boulevarde home, in honor of Mr. Lamberti Murphy.

Mrs. Nicholson is the composer of the song "Memories of Mother" which became a hit for the Victor record on her behalf, and which is promised a wide "Mother's Day."

Guests at the dinner party will be Mr. and Mrs. E. B. Behrmer, Mr. and Mrs. Warren Hilton, Mr. and Mrs. Harry Bentley, Mr. and Mrs. William Hindman, George Keppel of New York and Miss Alice Lohr McDaniels.

Farewell Party

Mrs. Mattison B. Jones will give a farewell party at the Woman's Ath-

letic Club on Saturday for her daughter, Mrs. Hal Hersham, who returns with her husband and baby to

the Woman's Athletic Club yes-

terday in honor of Miss Marjorie Hamlin.

Pittsburgh next week. About eighty guests will participate.

Mrs. Katherine Thomas also gave a farewell luncheon for Mr. and Mrs. Hersham last week, and Mrs. Hersham herself was hostess to forty guests

at the Woman's Athletic Club yes-

terday in honor of Miss Marjorie Hamlin.

On May 2, the Misses Elena Blackley and Nellie Mann will leave a

New York, Boston and Washington, D. C. via the Panama Canal on the "Finland."

They will be the guests of Miss Blackley and Nellie Mann and Mr. and Mrs. Thomas Armat in Washington.

One of the several boat voyage

parties being given for these young ladies is that of Mr. and Mrs. Merrill G. Hubbard of the automobile club on May evening. The following Saturday Miss Frances Jones will be

their hostess, and a luncheon will be given for them by Miss Emily Herbert North, Mrs. James E. Herbert North, Mrs. James E. Herbert North, Mrs. Louis Breer entered

with a bridge tea for twenty-four

during the past week.

IN STORES AND HOME

NOVELTIES, IDEAS AND PRACTICAL SUGGESTIONS

By Olive Gray

Clothes Currents

Are your clothes current? Do they circulate, or are they a dead issue? Is every garment in readiness for wear, or do they merely hang in the closet, awaiting the modish return? If so, they are like money lying idle—money, drawing no interest—you are doing yourself and your investment, a double wrong. Scrutinize each and every garment. Purchase whatever is needed to make modish the clothes. Either wear them or give them away to someone who will. Do it now. Easter is the time for reclothing yourself and others. Put the garments in circulation, instead of mising them.

Reptilian Prevails

If all the reptiles lose their skins during the coming year, there may be no scarcity of this material trimming; but so popular has reptilian become, for all departments of women's dress, from shoes to millinery and fur trimmings, and wraps, that the creeping things would better hide, if they may preserve their hide!

Orange and Brown

The effect of the Spanish, in architecture, has crept into the line of dress, terminating in the line of colors, which are the most striking, much liked. It is a high light in orange to relieve a frock or suit of brown. The last colors may be considered the most attractive, the orange giving life and interest. Orange with brown has found favor in the Spanish ensemble, as we know.

The Tooth Chart

Editha has a new way of keeping interest in preservation of children's teeth. She has promised prior to the child's losing his first tooth, she will send the picture attached to a leaf of the baby fur or coat lapel. They blend happily and in no way interfere with each other.

Waist-Line Where?

The where of the waist-line, or not-at-all, characterizes the new couture designs of Paris. In the changing placement of shoulders, makers, does away with the line altogether and this in connection with the silhouette. This straight-line silhouette is agreed upon by all, and it has reached the point where each may select the way of what the Parisians term, "la ligne."

Summer Bolero

For the summer season, there is no doubt that the bolero will be worn. The bolero, made in the skirt and hand comes to the ensemble idea, accompanied with a blouse of thin fabric, matching for summer open the latest mode.

Jacket Also

The jacket plan, also in different clothes ideas for summer. A jacket may either be of green, white and blue, to the dogwood necklace to match the skin in vivid contrast. Some of the smartest little jackets are in forming the general weave of wool, or cream-color, some of them, but embroidered throughout, with the skirt accompanying them, but embroidered throughout, with many pastel tones of silk or satin. Especially the harmonious combination of the two, the one being domed in this character, while the other is plain. In this case, the under waist is made of the fabric, either of cotton, or other fine wear. It may be of cotton, since the cotton silken weaves and vis with them popularity.

Newly Popular Colors

"Balized" green is a popular spring color in summer, both in millinery and gowns. Green in this shade are exceptionally what bright pink which Radish is among the roses, the rose being in degrade effect. Formed note of the graduation, or may be used with white, with black or dark.

Fashion's Eastering

Printed georgette tunics are to be worn with wool crepe skirts of a pink color. For Easter, the latest are medium and large plaid in red. Men's ties have very wide stripes in two contrasting colors. Styling slippers for formal wear. Umbrellas come with narrow ribbons and trimmings. These are fasteners, too. Scarves are worn with the square necktie. Scarves and stoles are popular wear with the suit.

Now, and stoles form an attractive trimming for the arm gown.

Some women wear two dozen slender bangles on arms.

A hat and bag ensemble of felt and leather.

Intex is very popular for spring.

TOMORROW'S MENU
TIMES TO START
COOKING CLASSES

Interesting free classes in cooking and domestic science will be conducted by The Times, under the direction of Mrs. A. L. Wyman, one of the best-known women cooks in the United States, and has won thousands of dollars in Los Angeles through her daily menus and recipes in the Times.

The first class will meet tomorrow from 3 to 4 p.m., in the Hotel Room of the Southern California Manufacturers' Exhibit, in the Southwest Building, 100 South Broadway. Subsequently, classes will be held at regular intervals to be announced later. All women readers of The Times are cordially invited, and those wishing to bring a friend or neighbor may do so.

YOUR BABY and MINE

By Myrtle Meyer Eldred

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply.

Mrs. M. J. writes: "My baby is 18 months of age and has only in the last two months begun to walk pogo-toed. Can you suggest a remedy? I have bought her a certain brand of 'ankle' shoes but they do not seem to help. She did not walk this way when she first began to walk."

Answer
Toeing-in slightly is the right way to walk. If a child will learn to walk this way, later he will walk with his toes straight ahead which is quite all right too. The effort should be made against toeing out which habit more prone to develop in children. To help him, with the result that they acquire a natural manner of foot alinement, because of a walk which was unnatural.

The shoes haven't been worn long enough to show any real effect yet. You haven't given them a fair chance. But if you can't get them, put on the lift, lengthwise of the inside of the shoes, and this added rise will help the child to keep from toeing-in too much.

Caster Oil Habit
Mrs. H. A. B. writes: Please tell me how to help my baby to stop the constipation? She has whole milk cereal, vegetables, prunes and orange juice and cod liver oil twice a day.

The doctor said to give her castor oil three times a week, but she would keep it down and it would not help her clean out. But she never has a natural movement. Her weight twenty-five pounds and she is sixteen months old.

Answer
The one way to keep the child constipated is to do as this doctor told you.

The constant use of castor oil is one of the worst of habits and just because it is so thoroughly "clean out" the bowel tract, it causes the most stubborn constipation because until there is again a residue in the bowel there can not possibly be a movement.

Perhaps having the baby's rectum stretched will overcome the constipation naturally.

One of the best ways to keep the bowels moving is of good weight and is getting a good diet, this might be wise to try. Won't you write me for the leaflet on constipation which suggests other methods of combating this trouble. Send a self-addressed

APPLE DUMPLING
Peel and core tart apples of even medium size, fill the center with no sugar, add a few cinnamon. Roll out paste (short pie paste) one-eighth of an inch thick and cut in squares large enough to wrap around each of the apples. Sprinkle with a spoonful of the pastry on top of an apple and wrap the end under the apples. Wet edges and seal carefully so that no steam can escape. Put the dumplings, overlapping edges downward in a buttered baking pan; brush with beaten egg and bake in a moderate oven over the coals of a fire. Ten minutes before removing from the oven, sprinkle each dumpling with powdered sugar. Serve with hard sauce or maple sauce.

YOUNG SHEIK SIGNS CONTRACT

Charles Delaney Farms Out His Talents With M-G-M; Paramount Ties Up Bright Young Actress; Frank Capra With First National

BY GRACE KINGSLEY

Once they catch a good actor, out of casting director and secretary, and later going into the acting end of the business. She achieved her first big success in pictures as the crackling grandmother in "Miss Lulu Bett."

Paramount Signs Youngster

The very latest acquisition out

is Charles Delaney, romantic male lead of

M-G-M's "Priscilla" and "The

"Levy" and "The

"Thirteenth Hour," who, according to the announcement of

Irving G. Thalberg, has just signed a long-term contract with his organization.

Delaney, who first came to notice of the pictures through his work in "Those Who Dance" and "Barbara Frietchie," recently played in such pictures as "College Days" and "The Hinter Room," was his work opposite Sally O'Neil in "Frisco Sally Levy," which led to a contract for him to play opposite Jacqueline Gadsden in "The Devil's Partner," starring Lionel Barrymore. His completion of this role was rewarded with a contract as a permanent stock player.

The young actor was born in New York and educated there and at Queen's College, Toronto, Can. He first appeared on the stage in 1923 in a vaudeville act over the Keith circuit. His first picture was in "Carl Fleming's 'The Devil's Partner.'

Young Delaney is possessed of a remarkable screen personality and is known for his ability as a dramatic leading man.

Frank Capra Signs

Whether or not Frank Capra's directorial debut in "The Strong Man" and "Long Pants" had anything to do with it, the fact remains that Capra has just signed another contract with First National.

Capra is to direct "Hell's Kitchen," which Robert Kane will make in New York. With the acceptance of the New York production, it is said he had concluded negotiations with three other producers who were seeking his services. He will return to Los Angeles immediately upon the completion of the production in New York.

The director leaves for New York tonight, where he is to confer with producer and author. The cast for the picture has not been selected.

Ethel Waley With De Mille

Having firmly established herself as an excellent player of character roles, Ethel Waley seems only right that Ethel Waley should be rewarded. And such seems to be the notion of Cecil B. De Mille, who has just signed Miss Waley on a long-term contract.

Under the terms of her contract Miss Waley is to be loaned to First National as a character actress in the pictures in which she plays the role of Countess Vronsky.

One long-standing is the professional relationship between Cecil B. De Mille and Miss Waley. When the two Miller were writing, directing and acting in plays in the East, Miss Waley was appearing in their plays. When they went into pictures in Hollywood, she came with them, acting at first in the capacity

of Ethel Waley. Having, it is understood, written, directed and acted in plays in the East, Miss Waley was appearing in their plays. When they went into pictures in Hollywood, she came with them, acting at first in the capacity

of Ethel Waley.

NEWS OF SOUTHERN COUNTIES

GLENDALE VOTE ALMOST IN TIE

But Five Ballots Separate Hatz and Kinch

Only Two Changes Made as Bakersfield Elects

Tulare Selects Five New Members of Board

GLENDALE, April 13.—The City Council of Glendale, following yesterday's election of Councilmen C. E. Kulin, Harry Hatz and G. C. Kinch for another term in office, will meet next Monday night to organize and to appoint the heads of the standing committees.

The personnel of the Council will be the same as it was before the election, it is not anticipated that any changes will be made, and it is believed certain that Harry G. MacBain will still be selected as Mayor of the city by his colleagues on the Council.

City Attorney Ray Morrow has ruled that the two candidates receiving the highest number of votes would be entitled to serve for the four-year term and that the low man would receive for two years unless a recount is demanded by the last named in view of the margin of victory between himself and Councilman Hatz, the latter polling 3,665 to Kinch's 3,600.

CHANGES AT BAKERSFIELD

BAKERSFIELD, April 13.—Defeating their opponents by majorities ranging from 107 to 240, William M. Corbett, proprietor of the Korber Furniture Company on Bakersfield street, and W. J. Carlisle, locomotif, were elected Councilmen from the First and Second wards, respectively, in the second regular election of the Board of City Trustees.

Corbett decisively defeated Councilmen C. A. Griffith in the First Ward contest, and Carlisle took a lead in the Second, which he defeated Harry G. Clements, real estate man.

The general election results completed the Board of City Trustees, with only two changes in the Board of City Trustees. In the primary four City Councilmen were re-elected, and the whole Board of City Trustees, G. Bain, who did not run for reelection, the was re-elected.

The new Council board will now consist of L. E. Stone, Mr. W. M. Corbett, Elmer Martin, W. J. Carlisle, F. C. Johnson, F. S. Benson and G. F. Johnson.

LIGHT VOTE AT TULARE

TULARE, April 13.—Complete returns from Tulare's municipal election of yesterday show a light vote. Five new Councilmen were chosen from six candidates.

Those elected are: T. C. Thompson, 260; Edgar L. Smith, 250; W. E. Olmsted, 190; W. H. Cook, 24; and D. Cook, 24; each of whom received 244 votes. William H. Hahay, 250. The sixth candidate, J. H. Fow, received 185 votes.

H. C. Cross, a recently returned police judge, was elected City Treasurer, succeeded J. J. Mitchell. C. W. Cobb was re-elected City Auditor.

John E. Newell was elected on the Board of Education. R. J. Young replaces R. H. Jones. Those re-elected are William Williams, R. M. Fuller, Glenn Moran, H. H. Lundwall.

WILL DISCUSS DRAIN

Centinela Slough Floods to be Subject of Meeting

INGLEWOOD, April 13.—Storm-drain engineers of Los Angeles county and City Engineers Willis S. Peffer of Inglewood and Fred W. Peffer for the drainage district on the west side of the city, will be present at a meeting to be held in the council chambers, Ingleside City Hall, tomorrow evening.

Engineers of both the city and county of Los Angeles, according to Mr. Peffer, agree that it would be unwise to make the project go forward on the strength of the cost of such a huge undertaking, and it is understood that both that city and county will bear a proportionate share of the expense.

The proposed drainage district according to tentative plans, would include practically all of Inglewood, the Westside, some territory in the city of Los Angeles and some area in the county. The meeting is called by the Ingleside City Council.

MISSION ACRES CLUB CHOOSES NEW HEAD

MISSION ACRES, April 13.—Mrs. J. L. Plummer has been elected president of the Mission Acres Women's Club at the next meeting of the club. Other officers are Mrs. E. J. Johnson, vice-president; Mrs. W. E. Olmsted, recording secretary; Mrs. E. C. Larson, corresponding secretary; Mrs. C. M. McNamee, treasurer; and Mrs. M. D. Andrews, federation secretary. The club has doubled the membership within the last twelve months.

ALLEGED SLAYER GIVES UP

Bakersfield Man Accused of Killing Surrenders with Remark He Wanted "to Be Locked Up"

BAKERSFIELD, April 13.—Asserting that he wanted "to be locked up," Joe Giuseppe Favilla, charged with the murder of W. E. Fussell, Santa Fe man who was attacked here Friday morning and died three days later, today surrendered himself at the office of Sheriff Oas Walser. The surrender of Favilla ended a five-day search for the alleged slayer of the man.

Descriptions of the fugitive were forwarded throughout the West shortly after the death of Fussell, when a murder complaint was filed with the District Attorney's office.

According to Deputy Sheriff Al Benford, who was on duty at the Sheriff's office, Favilla walked into the jail, apparently unarmed, and said he wanted to be put in jail. Favilla told officers that he had "been hiding in the bushes," since

CHILDREN IN NEW EXPERIENCE

Build Their First Man of Snow

Left to right—Kathryn Mangum, Harry Hocker, Viola Hocker and Claude Fish, who supervised architecture and construction.

VAN NUYS, April 13.—Snowstorms, snowmen and even snowy halostones are the latest fad in Van Nuys, as the first snow of the season has been found in Topanga. But sometimes they happen in Van Nuys and San Fernando Valley—it never in the other realms.

Yesterdays' snowfall of fresh cloudburst over the Van Nuys region, which, after causing a short downpour of rain, decided to be a freak snowfall, and wound up in Topanga. But sometimes they happen in Van Nuys and San Fernando Valley—it never in the other realms.

Mr. and Mrs. Poplin, who supervised architecture and construction.

Move to Make Pismo Beach National Park

PISMO BEACH, April 13.—A movement to have the beach lands of this city created a national park reserve and placed under the jurisdiction of the Federal government was started yesterday by Mrs. Genevieve Hedding who addressed a meeting of the Pismo Chamber of Commerce. Mrs. Hedding declared the only necessary steps to be taken in order to have the reserve established is to have the government make formal petition to the government and declare the boundary lines to be followed.

The plan for the formal opening of the summer season was also discussed and it was agreed that the chamber would sponsor a monster dance and bring in other amusement features to help draw tourists to the city.

May Day will probably be named as the date for the formal opening and this is to be made an annual affair.

The general public is great enough this year to warrant a bigger program next spring. It was announced by Mrs. Hedding, president of the chamber, that Mrs. Elmer Phoenix, former Mrs. Sullivan as the committee in charge of the events.

CAMING SUSPECTS WILL PLEAD FRIDAY

HUNTINGTON PARK, April 13.—When Judge Louis Butwells expects to have before him a number of persons who have been booked on charges of gambling in the city, he said made a mistake in this city.

About \$62 in cash, a quantity of dice and other evidence of a game in progress were obtained.

HEALTH CENTER COMPETED FOR
Active Campaign Conducted by Alhambra

Other Cities in District Race Also

Promise of Free Site for Building Made

ALHAMBRA, April 13.—An campaign to secure for this new district health center is under way and the city has offered to give a site for the building. City engineer M. H. Irvin today made a presentation to the County Board of Supervisors setting forth claims as to the location of the proposed new health center and the terms of the offer of the land. The city has agreed to provide free site in the vicinity of the new health center and appropriated \$100,000 for the construction of a new health center within the district, providing a suitable site is located. The district board will be made to retain it and to give it to the city officials. The campaign has expanded to an extent that the local quinquennial election will last until the early fall. The station probably will be on the air again in the fall.

RALLY DECORATED

The city was gaily banked with flags and bunting and everywhere a holiday atmosphere. A band was on hand to play all kinds of music. The city hall was decorated with elaborate decorations. While this

WALL DECORATED

the walls were gaily banked with flags and bunting and everywhere a holiday atmosphere.

Could You Make a Go of This?

On one of the busy cross-town boulevards of Los Angeles is a specialty shop for sale. The present owner must return East.

Downtown is a well-paying office business. It must be sold because of other interests.

Over in the industrial district is a small factory. It could be made to grow rapidly with additional capital.

All over Los Angeles and Southern California live business opportunities are turning up overnight. Do you want to know immediately of any developments that might interest YOU? The "Business Opportunities" in Times Want Ads will keep you fully informed.
